## About This Content

The Teeth of The Bloodwolf is a short, story driven mini-campaign that should last for one to two sessions of play.

**Genre:** Fantasy

**Game System:** System Generic

**Style:** Story Driven

A grisly murder has rocked the small village of Dirusholm, a secluded town in the wooded mountain country of Moldovar.

Whispers of a forgotten clan surface as mysterious attacks begin to take place. As the attacks grow bolder, fear and paranoia begin to mount, culminating in the tragic murder of young girl. Adventurers find the town in a state of panic, seeking aid in solving this brutal crime.

As players follow the clues that lead them to the final confrontation a terrible plot unravels and an epic battle ensues.

Items Included:

- Teeth of The Bloodwolf Campaign File

If any player character is bloodied before an enemy can be slain they must pick up the trail on their own.

*"As [member of the party] becomes bloodied a howl is heard in the distance. At once your assailants cease combat and retreat. After a moment the fog clears and you are left alone in a small clearing of the woods."*

**Perception**  
You see a small trail of broken twigs and displaced leaves leading to the north.

**Arcana**  
You sense magic still lingering in the air from what was surely a magical fog. The source of the magic is faint, but seems strongest from an area to the north of you.
