WOW, this DLC is a very good thing and it should be highly recommended when first buying Victoria II, Victoria II: Heart of Darkness is a DLC everyone should get, this DLC is very good in my opinion and i really recommend buying this one.. Having played a good amount of vanilla Victoria II at first I was did not like the changes made by the heart of darkness. But the new changes made the game more realistic the. New colonization process was confusing at first but I think it is better. Over all the changes made in the DLC have produced an entirely new game which I highly recommend.. Well, the only problem I've had is that after about, say, 14 different singleplayer runs, the mod seems to stop working. It also crashes the game everytime I attempt to load up a autosave, soooo..... Yeah, definitely wouldn't recommend the DLC for long-term use.... The expansion isn't necessarily bad,it just seems overpriced and doesn't change much.If you get it get it on sale.
